

BMO Healthcare

Let us help you with banking and financing solutions for your dental clinic.

Our expert healthcare team is here to help with all your financing needs.

Business Acquisition Financing¹

When you buy an established dental office, you need:

- a financial solution that recognizes the business's market value
- someone to work with your key business relationships and advisors to ensure a smooth purchase

Leasehold/Equipment Financing¹

- Capital financing available to upgrade or replace equipment, furniture or leaseholds

Operating Financing¹

- Borrow what you need for your inventory needs and operating expenses
- If you're making deposits, they'll automatically be credited to your outstanding loan

Real Estate Financing¹

- Our specialized financing can help you acquire new property or expand existing premises to suit your needs

Optimizing Your Cash Flow

- Put receivables and payments (including point of sale) to work more quickly so your cash works harder for you

Leverage our industry knowledge and expert advice

Managing a successful practice means focusing on your patients' well-being, and finding innovative financial solutions to keep your business operations running smoothly.

We have a dedicated, expert team of healthcare banking specialists who understand the unique requirements of the healthcare industry, and how to help improve your practice's cash flow and profitability.

Our financing and cash flow solutions are perfect for healthcare professionals.
