

How Retirement Paths Differ for Both Men and Women

Successful retirement planning is an enormous challenge for both men and women. However, often the challenges for each are unique.

Two specific factors include differing wages earned during employment years and longevity expectations. Each can significantly impact one's retirement planning. Other significant factors are identified in this excellent BMO Wealth Institute report [Divergent Paths to Retirement](#).

It is insightful, educational and worth reading.

Sincerely,

[The Ferrie Wealth Management Group](#)
